

SEASIDE IN POLAND

Poland is a country located near the Baltic Sea.

The Baltic Sea is called the inland sea of northern Europe.

The maximum length of this sea is 1,601 km.

The maximum width is 193 km.

The Baltic Sea is medium-sized – its approximate area is approximately 415,266 km².

The catchment area is 1,721,233 km².

The volume of the sea itself is 21 721 km³.

ANIMALS

The animals of the Baltic Sea still represent a fairly rich species composition, although some of them are already quite seriously endangered.

TRI -CITY

The Tri-City consists of 3 cities:
Gdańsk, Gdynia and Sopot.

These are the 3 main cities lying on
the coast line of the Baltic Sea.

It is inhabited by
up to 1.5 million people.

They are famous for being very
attractive for tourists.
